Contents Volume 76

No. 1 (February 2009)

Outbreak of subclinical mastitis in a flock of dairy goats associated with atypical *Staphylococcus haemolyticus* **G Leitner, S Sela, O Hammer-Muntz, D Zivotofsky, L Weisblit, M Chaffer and S Zamir** 1

A comparison of management practices, farmer-perceived disease incidence and winter housing on organic and non-organic dairy farms in the UK **FM Langford, KMD Rutherford, MC Jack, L Sherwood, AB Lawrence and MJ Haskell** 6

Plasma vasopressin and oxytocin concentrations increase simultaneously during suckling in goats **K Olsson and M Högberg** 15

Effects on goat milk quality of the presence of *Mycoplasma* spp. in herds without symptoms of contagious agalactia **C de la Fe, A Sánchez, A Gutierrez, A Contreras, JC Corrales, P Assunçao, C Poveda and JB Poveda** 20

Association between isolation of *Staphylococcus aureus* one week after calving and milk yield, somatic cell count, clinical mastitis, and culling through the remaining lactation **AC Whist, O Østerås and L Sølverød** 24

The role of teat skin contamination in the epidemiology of *Staphylococcus aureus* intramammary infections **R Piccinini, L Cesaris, V Daprà, V Borromeo, C Picozzi, C Secchi and A Zecconi** 36

Potential and limitation of mid-infrared attenuated total reflectance spectroscopy for real time analysis of raw milk in milking lines **R Linker and Y Etzion** 42

The effect of short-term hyperammonaemia on milk synthesis in dairy cows **NG Purdie, DR Trout, SRL Cieslar, TG Madsen, DP Poppi and JP Cant** 49

The effects of two out-wintering pad systems compared with free-stalls on dairy cow hoof and limb health **KKM O'Driscoll, A Hanlon, P French and LA Boyle** 59

Influence of space allowance and housing conditions on the welfare, immune response and production performance of dairy ewes **M Caroprese, G Annicchiarico, L Schena, A Muscio, R Migliore and A Sevi** 66

Suitability of high pressure-homogenized milk for the production of probiotic fermented milk containing *Lactobacillus paracasei* and *Lactobacillus acidophilus* **F Patrignani, P Burns, D Serrazanetti, G Vinderola, J Reinheimer, R Lanciotti and ME Guerzoni** 74

Focusing on casein gene cluster and protein profile in Garganica goat milk **M Albenzio, A Santillo, F d'Angelo and A Sevi** 83

Exopolysaccharide-producing mesophilic lactic cultures for preparation of fat-free Dahi – an Indian fermented milk **P Behare, R Singh and RP Singh** 90

Synbiotic effect of *Lactobacillus helveticus* M92 and prebiotics on the intestinal microflora and immune system of mice **J Frece, B Kos, IK Svetec, Z Zgaga, J Beganović, A Leboš and J Šušković** 98

Use of FTIR and mass spectrometry for characterization of glycated caseins **CM Oliver, A Kher, D McNaughton and MA Augustin** 105

Interaction between *Lactobacillus kefir* and *Saccharomyces lipolytica* isolated from kefir grains: evidence for lectin-like activity of bacterial surface proteins **MA Golowczyc, P Mobili, GL Garrote, M de los Angeles Serradell, AG Abraham and GL De Antoni** 111

Monitoring major mastitis pathogens at the population level based on examination of bulk tank milk samples **D Rysanek, M Zouharova and V Babak** 117

Forage to concentrate ratio in Jonica breed goats: influence on lactation curve and milk composition **V Tufarelli, M Dario and V Laudadio** 124

Erratum

Renan M, Guyomarc'h F, Arnoult-Delest V, Pâquet D, Brulé G & Famelart M-H 2007 The rebodying of stirred yogurt: interactions between proteins. *Journal of Dairy Research* **75** 450–456 128

No. 2 (May 2009)

Prevalence of intramammary infection in Dutch dairy herds **O Sampimon, HW Barkema, I Berends, J Sol and T Lam** 129

Milk production and composition in Malagueña dairy goats. Effect of genotype for synthesis of α_{s1}-casein on milk production and its interaction with dietary protein content **G de la T Adarve, ER Morales, JMS Manrique, FG Extremera and MRS Sampelayo** 137

Effect of bovine lactoferrin on the internalization of coagulase-negative staphylococci into bovine mammary epithelial cells under in-vitro conditions **P Hyvönen, S Käyhkö, S Taponen, A von Wright and S Pyörälä** 144

Crude goat whey fermentation by *Kluyveromyces marxianus* and *Lactobacillus rhamnosus*: contribution to proteolysis and ACE inhibitory activity **V Hamme, F Sannier, J-M Piot, S Didelot and S Bordenave-Juchereau** 152

Anti-atopic dermatitis effects and the mechanism of lactic acid bacteria isolated from Mongolian fermented milk **A Hayashi, M Kimura, Y Nakamura and H Yasui** 158

Supplemental fish oil does not alter immune competence or the pathophysiological response to an intramammary infusion of endotoxin in peri-partum multiparous Holstein cows **MA Ballou, RC Gomes and EJ DePeters** 165

Evaluation of the serum fructosamine test to monitor plasma glucose concentration in the transition dairy cow **ML Sorondo and A Cirio** 173

Prevalence of pathogens in milk samples of dairy cows with clinical mastitis and in heifers at first parturition **B-A Tenhagen, I Hansen, A Reinecke and W Heuwieser** 179

Application of a multiplex PCR assay for the detection of *Shigella, Escherichia coli* and Shiga toxin-producing *Esch. coli* in milk **S Riyaz-Ul-Hassan, S Syed, S Johri, V Verma and GN Qazi** 188

Relationship between somatic cell count, polymorphonuclear leucocyte count and quality parameters in bovine bulk tank milk **E Wickström, K Persson-Waller, H Lindmark-Månsson, K Östensson and Å Sternesjö** 195

Diet selection and milk production and composition in Girgentana goats with different α_{s1}-casein genotype **M Avondo, RI Pagano, AM Guastella, A Criscione, M Di Gloria, B Valenti, G Piccione and P Pennisi** 202

Effect of somatic cell counts on ewes' milk protein profile and cheese-making properties in different sheep breeds reared in Spain **I Revilla, JM Rodríguez-Nogales and AM Vivar-Quintana** 210

Safety Assessment of *Lactobacillus fermentum* CECT5716, a probiotic strain isolated from human milk **F Lara-Villoslada, S Sierra, MP Díaz-Ropero, JM Rodríguez, J Xaus and M Olivares** 216

Milk ejection disorders in Swiss dairy cows: a field study **CJ Belo, S Schlegel, J Moll, E Möstl and RM Bruckmaier** 222

Enumeration of starter cultures during yogurt production using Petrifilm™ AC plates associated with acidified MRS and M17 broths **MM Gonçalves, R Freitas, LA Nero and AF Carvalho** 229

Impact of policy-induced structural change on milk quality: evidence from the Flemish dairy sector **B Van der Straeten, J Buysse, G Van Huylenbroeck and L Lauwers** 234

Effect of sunflower-seed oil or linseed oil on milk fatty acid secretion and lipogenic gene expression in goats fed hay-based diets **L Bernard, C Leroux, Y Faulconnier, D Durand, KJ Shingfield and Y Chilliard** 241

A compartmental model describing changes in progesterone concentrations during the oestrous cycle **S Meier, JR Roche, ES Kolver and RC Boston** 249

No. 3 (August 2009)

Milk concentration of the mammalian lignan enterolactone, milk production, milk fatty acid profile, and digestibility in dairy cows fed diets containing whole flaxseed or flaxseed meal **HV Petit, N Gagnon, PS Mir, R Cao and S Cui** 257

Evaluation of different primers for PCR-DGGE analysis of cheese-associated enterococci **PM Lorbeg, AC Majhenič and I Rogelj** 265

Milk flow-controlled changes of pulsation ratio and pulsation rate affect milking characteristics in dairy cows **S Ambord and RM Bruckmaier** 272

Conjugated linoleic acid (CLA) and fatty acid composition of milk, curd and Grana Padano cheese in conventional and organic farming systems **A Prandini, S Sigolo and G Piva** 278

Influence of somatic cell counts and breed on physico-chemical and sensory characteristics of hard ewes'-milk cheeses **I Revilla, MA Lurueña-Martínez and AM Vivar-Quintana** 283

Comparison of the level of residual coagulant activity in different cheese varieties **N Bansal, PF Fox and PLH McSweeney** 290

Effect of high-pressure homogenisation on rheological properties of rennet-induced skim milk and standardized milk gels **K Lodaite, F Chevalier, E Armaforte and AL Kelly** 294

Seasonal changes in the technological and compositional quality of ewe's raw milks from commercial flocks under part-time grazing **AI Nájera, LJR Barron, P Ribeiro, F Pèlissier, E Abilleira, FJ Pérez-Elortondo, M Albisu, J Salmerón, JC Ruiz de Gordoa, M Virto, L Oregi, R Ruiz and M de Renobales** 301

Comparison of the activity of human and bovine milk on two cell lines **C Pocoví, C Conesa, C Barbana, MD Pérez, M Calvo and L Sánchez** 308

Bifidogenic effect and stimulation of short chain fatty acid production in human faecal slurry cultures by oligosaccharides derived from lactose and lactulose **A Cardelle-Cobas, M Fernández, N Salazar, C Martínez-Villaluenga, M Villamiel, P Ruas-Madiedo and CG de los Reyes-Gavilán** 317

Prediction of total quarter milk somatic cell counts based on foremilk sampling **O Wellnitz, MG Doherr, M Woloszyn and RM Bruckmaier** 326

Long-term effects on heifer performance of an enhanced-growth feeding programme applied during the preweaning period **M Terré, C Tejero and A Bach** 331

Administration of a live culture of *Lactococcus lactis* DPC 3147 into the bovine mammary gland stimulates the local host immune response, particularly *IL-1β* and *IL-8* gene expression **C Beecher, M Daly, DP Berry, K Klostermann, J Flynn, W Meaney, C Hill, TV McCarthy, RP Ross and L Giblin** 340

Influence of the emulsion droplet type on the rheological characteristics and microstructure of rennet gels from reconstituted milk **Z Gaygadzhiev, A Hill and M Corredig** 349

Cell population, viability, and some key immunomodulatory molecules in different milk somatic cell samples in dairy cows **A Baumert, RM Bruckmaier and O Wellnitz** 356

Electronic Nose analysis of milk from cows grazing on two different Alpine vegetation types **L Falchero, G Sala, A Gorlier, G Lombardi, M Lonati and G Masoero** 365

Supplementing dairy steers and organically managed dairy cows with synthetic vitamin D_3 is unnecessary at pasture during exposure to summer sunlight **L Hymøller, SK Jensen, H Lindquist, B Johansson, MO Nielsen and E Nadeau** 372

Goat whey fermentation by *Kluyveromyces marxianus* and *Lactobacillus rhamnosus* release tryptophan and tryptophan-lactokinin from a cryptic zone of alpha-lactalbumin **V Hamme, F Sannier, J-M Piot and S Bordenave-Juchereau** 379

No. 4 (November 2009)

Antioxidant and cholesterol assimilation activities of selected lactobacilli and lactococci cultures **S Jain, H Yadav and PR Sinha** 385

Sheep and goats differences in CLA and fatty acids milk fat content in relation with mRNA stearoyl-CoA desaturase and lipogenic genes expression in their mammary gland **E Tsiplakou, E Flemetakis, C Kalloniati, G Papadomichelakis, P Katinakis and G Zervas** 392

Milk yield, udder health and reproductive performance in Swedish organic and conventional dairy herds **N Fall and U Emanuelson** 402

Use of serum amyloid A and milk amyloid A in the diagnosis of subclinical mastitis in dairy cows **G Gerardi, D Bernardini, CA Elia, V Ferrari, L Iob and S Segato** 411

Isolation of lactobacilli from sow milk and evaluation of their probiotic potential **R Martín, S Delgado, A Maldonado, E Jiménez, M Olivares, L Fernández, OJ Sobrino and JM Rodríguez** 418

Lactoferrin concentrations in bovine milk prior to dry-off **KA Newman, PJ Rajala-Schultz, J Lakritz and FJ DeGraves** 426

Evidence for the presence of restriction/modification systems in *Lactobacillus delbrueckii* **V Suárez, M Zago, G Giraffa, J Reinheimer and A Quiberoni** 433

Genetic polymorphism of STAT5A protein: relationships with production traits and milk composition in Italian Brown cattle **M Selvaggi, C Dario, G Normanno, GV Celano and M Dario** 441

Mechanisms involved in the immunostimulation by probiotic fermented milk **CM Galdeano, A de Moreno de LeBlanc, E Carmuega, R Weill and G Perdigón** 446

Weekly excretion of the mammalian lignan enterolactone in milk of dairy cows fed flaxseed meal **N Gagnon, C Côrtes and HV Petit** 455

TNFα-mediated plasminogen activation on neutrophils is involved in the high plasmin activity in mammary secretion of drying-off cows **WK Chou, TC Yu, SE Chen, HC Peh, WB Liu, MT Chen, H Nagahata and CJ Chang** 459

Effect of fermented milk containing *Lactobacillus acidophilus* and *Bifidobacterium longum* on plasma lipids of women with normal or moderately elevated cholesterol **S Andrade and N Borges** 469

The interaction of monensin and flaxseed hulls on ruminal and milk concentration of the mammalian lignan enterolactone in late-lactating dairy cows **HV Petit, C Côrtes, D da Silva, R Kazama, N Gagnon, C Benchaar, GT dos Santos and LM Zeoula** 475

Haptoglobin and serum amyloid A in bulk tank milk in relation to raw milk quality **M Åkerstedt, K Persson Waller and Å Sternesjö** 483

Reliability of the bulk milk somatic cell count as an indication of average herd somatic cell count **J Lievaart, HW Barkema, H Hogeveen and W Kremer** 490

Utilization of nitrogen and energy from diets containing protein and fat derived from either goat milk or cow milk **L Sanz Ceballos, E Ramos Morales, L Pérez Martínez, F Gil Extremera and MR Sanz Sampelayo** 497
